

Faith in Action
Hebrews 11

1. According to verse 1 what is faith?

2. After reading the whole chapter how would you describe faith in your own words?

3. Is faith simply a belief you have in your heart or does it require more than that? Read James 2:14-26 for further study.

4. Name at least 10 examples of an active and living faith, naming specifically the work each person was called to do.

5. To you, which one stands out the most? Take some time to reflect and seek God about why it does.

6. Is there anything in your life that God is calling you to do by faith? What step is He asking you to take? What is keeping you from doing it?

7. Take some time to share with one another what you believe God is calling you to do; talk about what it means to truly live by faith in today's world, especially our extremely secular society.
