

AFLC Evangelism & Discipleship

Current projects:

We have begun to develop a database of more than 50 men and women from the AFLC who are gifted in speaking and teaching. Names and information from this database will be made available to all AFLC congregations and organizations wanting to hold special meetings, conferences, rallies, seminars, etc. in their communities or districts. We are also available to assist in planning such events.

We are also partnering with other AFLC ministries to serve, support, encourage and assist congregations, pastors, and individuals in doing evangelism and discipleship.

Director Randy Nelson recently went with Home Missions Director Jim Johnson to share at special meetings in Felch, MI, and Randy is planning a trip to San Antonio, TX, with Journey Missions to assist with a special event and training.

Please contact Director Randy Nelson with any questions regarding any of our projects and resources!
